SUPERINTENDENT'S REPORT

I herewith submit my eighth annual report as superintendent of schools.

Freedom is to be again congratulated on having good schools, conducted by hard-working, competent teachers in a delightful and well-equipped building.

It is a matter of pride that the pupils going from our grammar school to the high schools are making an excellent record. This speaks well for the future since our schools are being called the bulwark of American civilization. More Freedom young people ought to be going on to higher education in colleges and other higher institutions of learning. Our list at present is very small. A better preparation to serve the community and to make the world a better place in which to live should be the aim of strong young people.

Repairs and Improvements

The fire which gutted the school building last summer necessitated a rebuilding of the roof and re-finishing and painting inside and out. The work was very satisfactorily done by the contractors and today our school building is called one of the most attractive and well-equipped in the district. The harmony of colors, the large wall pictures, new curtains and re-dressed furniture make attractive a building well heated and ventilated. We still greatly need more playground space. I pointed out in last year's report that supervised play is one of the best agencies for teaching life habits of cooperation and helpfulness. I again urge that a committee be appointed with power to act in securing land for a school playground.

Visual Education

The work in visual education has been helped by

the installation of dark green curtains which cover the windows and make the giving of pictures in the daytime much more feasible. Pictures have been shown such as "Jamestown," a valuable historical picture, "The Heart of a Hero," the story of Nathan Hale, the patriot spy, "The History of Corn," "About Bananas," "Golden Health," the story of oranges, "Columbus," and "From Tree to Paper."

Pictures have also been shown featuring the school activities in our own schoolrooms and on the playground. These pictures were taken last spring and shown this fall. Scenes were secured in both rooms of pupils working in groups on school projects. There were also secured scenes of activities on the playground.

Health Work

The medical inspection is being conducted by the new nurse, Miss Helen H. Nichols. Much good work was done last spring in correcting dental defects. Other clinic work has been of great help. This is a vital part of our work since sound bodies are very necessary.

In this connection, parents are reminded that children must be vaccinated before entering school. This should be done early in the summer so that the boys and girls will be ready for school in September. The help of the school board last summer in this matter was much appreciated.

I wish to express my appreciation of the excellent work of the school board, under the leadership of the chairman, Phil A. Bennett, in attending to the repair of the school building after the fire. And it may be

well said here that the school board is working faithfully now, as it has in the past, for the highest welfare of the schools.

Classes in adult education were started on December 31, and ran through January, meeting at the schoolhouse each Monday evening. There was a commendable interest in the first two classes—Current Events and Literature—but not much interest in the third—Business Law. The classes were taught by Lorne B. Hulsman of Madison. Mr. Hulsman is an old teacher and held the interest of those who attended. This was a Federal Aid project for five nights a week, and, since there are six towns in the district, Freedom was combined with Effingham for the remainder of the winter. This is a splendid line of activity and serves to keep alive the spirit of learning among adults. It is said, now, that the older people can learn as well as the younger.

Attendance

For the year ending June 30, 1934, we had an average attendance of 53, an average membership of 55, and a percent of attendance of 95.4. We should improve this percent.

Graduates

Last June we graduated a class of five from the Grammar School: Lester Cole, Delmore Brooks, Ruth Doherty, Marion Meserve, Carroll Milliken.

REPORT OF HEALTH WORK IN SCHOOLS

There were several children who had their tonsils and adenoids removed last spring and summer which brings the number down to seven now still needing this work done.

The dental clinics held regularly each year have made such a good progress that now only the children entering need have much work done on their teeth. This is proving a very economical clinic in keeping the teeth well cared for. Too much can not be said in their favor.

Even in times of depression we shall soon have all children in 100 percent physical condition.

Respectfully submitted,

HELEN NICHOLS R. N.
